Art Unit: 1626

Receipt is acknowledged of the amendment filed November 27, 2006 and the information disclosure statements filed June 2, 2004, July 2, 2004, April 1, 2005 and September 20, 2005, which have been entered in the file.

Applicant's election with traverse of Group I, claims 1 to 12 in the reply filed on November 27, 2006 is acknowledged. The traversal is on the ground(s) that the claims of Group II (claims 12 to 16) should be rejoined with Group I because the key elements are consistent such that the groups should be co-examined. This is not found persuasive because for the reasons given in the last office action.

The requirement is still deemed proper and is therefore made FINAL.

The first paragraph of the specification concerning the related applications should be amended to include the status of the parent and grandparent applications.

Claim 7 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Art Unit: 1626

The specification does not describe what "derivatives thereof" of the xanthenes of the group fluorescein, rhodol, rosamine and rhodamine dyes are intended or how they are obtained.

Claims 1 to 6 and 8 to 12 are allowed.

The references made of record and not relied upon show the state of the art.

The references that are crossed out on PTO 1449 were not received or a concise explanation of the foreign reference was not receive.
